THE NEW TRADITION · SALON & SPA COLLECTION

Greeting cards for the salon chair.

Sixteen cards written for salon and spa clients, and a free countertop spinner for the front desk. New retail income from the clients already in your chairs.

WHY CARDS BELONG IN A SALON

Your clients already have the time and the reason.

They wait. Color processing, dryers and drying nails leave clients sitting with nothing to do. A spinner by the front desk gives them something to browse.

They buy cards. Every client has a birthday, a friend, a mom or a thank-you coming up, and today she buys that card somewhere else.

Written for her friends and family. Every design is something a client would send her best friend, her mom or her sister: spa days, good hair days, friends who pamper each other. Each one is a card she will want to buy on the spot.

No extra work. Cards arrive sealed in clear sleeves, ready to drop into the spinner. Reorder by the code on each design.
